Feb 27, 2015 Here is my story I have a 1982 chevy truck and the crank pulley area in the driveshaft exploded I pulled it out and the rods were broken in two so i have a hole in my crank pulley and the rod is broken the piston is broken off the end of the rod. I have to have a pulley installed on it. I have been back and fourth with the autozone and the parts store. They want to charge me \$150.00 dollars just to put a pulley on it. I have decided I am going to find out how much it is going to cost to have this done at the junkyard it is \$1000.00 for this to be done. So I have gone back to Autozone and they want to charge me \$150.00 dollars to put the pulley on it. I am going to go to the junkyard and see what they want to charge me. Anyways to I have to have this done all around \$1200.00 dollars. I need to know how much it is going to be. F250 gasket 4th gear 351 motor drive line Toyota fxx-220 3.0t the 3
