.0 animo LAP texture pack 0.7.2 +_Warez_XD_2.0.5.exe download free wad compilers Apache; Where to find "corner_mapping" and "particle_level_lighting" for future GTA games? It's funny reading these things but not surprising that the same people that criticised the original game for it's looks, continue to bash this one for it's looks. Amazing job though, the fact you managed to improve on the original in just one year is pretty amazing, no real changes to the engine at all. I'm excited to see what comes next.
